infrastructure. Classroom lectures, stereotype seminars and libraries are not sufficient today. Students demand something more innovative and effective in this age of technological advancement. They need highly developed college management system which can support them in the process of education. For developing such a system, the college administration must have to follow certain necessary methods which can help in learning and teaching process and at the same time can help to straighten the management power.

b) Every teacher teaches very well and their behavior also good. If a few more subjects can be added in the college, and a playground is arranged, then it is very good. And if trees are planted around the college, apart from arranging a canteen in the college and opening the library, then the college is good for all the students. Otherwise everything is fine.

c) Please Improve the Library facilities in our college. And also encourage all student to join many cultural program, games & sports. Sir please enhance some subject combination in our college and seat capacity of every subject also.

d) Sports ground and library except all facilities are available here to progress a student all over good but **many subjects do not include in this college like Geography, Sanskrit etc.** So please noticed this matter otherwise all is well.

e) This college is the best for educational purposes and our staff and teacher staff behavior are too good . teacher and all staff in our college help us all kind of matters reading larling game sports etc.

f) I want that my college campus will become more attractive and Library should have more variety of books and more easy access to the students so that they can get everything whatever they want.I think it would have been better if the number of faculty members was a little more.

g) In our department of zoology,all our teachers are very good..& also helpful for us Laboratory materials all are not available So,this is needed must..& not available any library room ...This is must required for students & also needed one canteen for food & Also nececcity a playground.

h) The library system should be more developed in future that it will be good for the students and should be increased our subjected teacher that is most important in our college and should be developed our lab for science category student.

i) Best of luck.Please do respect us when we will get in the college. During COVID we just lost our college moment with our college.And washroom should be clean.Make a room for alumni. Make Library open. Nothing else .

j) There should be a library room, cantin, clean bathroom, washroom, latrin room, the college should be clean, more teachers needed, college campuse need more clean, a library full of books needed to read

k) One of the educational institution, which I very much enjoyed. The environment of this college is so refreshing, calm and tidy, it's attracs students attention and helps them to be focused. The professors are very good natured. Their propensity to help willingly, their easy going teaching deeply inspire students.

l) Plz improve the environment of the campus clean and gardening for more connected with nature and spent free time with beautiful nature and plz improve canteen nutritious food supplies and regular health checkup facilities and in campus area for students & teacher's and non teaching staff health emergency.

m) Every teacher teaches very well and their behavior also good .If a few more subjects can be added in the college, and a playground is arranged, then it is very good.And if trees are planted around the college, apart from arranging a canteen in the college and opening the library, then the college is good for all the students.Otherwise everything is fine.

n) Improve new subject and campus also and need a play ground,garden / there also need a boy's and girls hostel with high security/ There also need guidelines of entry time and exit time of students / And there also need a systemic change of class and routine of every semester

o) Need more subjects,,, and Library room , The inner environment of the college is not the same like the opening days. Need more working stuffs to improve inner environment. In the out side of college,a factory spreading pollution, if any changes to stop this ,then go for it .

p) According to me a big Stadium is being required,in this college,Where the observers will see the game or play peacefully. And also a canteen is being required, in this college,where the students or the teachers will get everything to eat in minimum price during tiffin time.

q) All teachers are good. All rules and regulations are fine. Teaching methods is very interesting and unique in this college.seminar room is very nice. The environment of this college is very good. but please improve the washroom.

r) needed more professors and staff like group C & D to run the college smoothly .and need to open the library so that the poor student can read and learn , need regular classes and there is no class for CBCS which effect the student in learning .

s) Need one English professor... campus must be taken neat and clean .. campus should be taken a play ground . College should be organise many social programs .. need a canteen and a Xerox centre College should a beautiful decoration with greens

t) College campus cleanliness needs to be taken. And the official staff of the college should be increased. And the college canteen should be well arranged and plastic free college campuses.. I think otherwise all are good.

u) College campus cleanliness needs to be taken. The official staff of the college should be increased. And college canteen should be well arranged. Wash room should be clean.... Otherwise, all are good.

v) The environment and surrounding of the college should be maintain properly. The staffs and the administrative worker should be caring and helpfull to the students. The selective subject should be effective and helpfull for higher study and give opportunity to settle in future with the help of the Teaching staffs.

w) I think it will become better in next few years . College library need improvement.. College campus are not very good,,Teaching at our college is exceptionally good as the faculty focuses on each and every corner of the topic. They not only focus on the curriculum but also enhance.

1) The college need immediately a group of teaching staff. Present Professors are not adequate to continue a large educational body like 'College'. For instance, the entire college has only one English teacher and two Bengali teachers. Is it adequate? Other departments are also suffering from the same faculty issue. 2) Book browsing process is very compex in our college, during my tenure as a student I had to go through a hazardous condition. I think the system need to change very soon and the teachers should encourage the student to visit the

Library regularly. 3) The College authority should think about the students who come from distant places as transport system is very poor... Need to start a regular bus service.

x) Introducing a digital library system will be useful for students to expand their innovative thoughts. And this college need to improve their campus for a good environment. To encourage students in creative works and sports, a good college should have various performance clubs and an active sports academy as well.

y) Students should come to college regular. Sports should be arranged Canteen should be made in the college Its surroundings should be kept clean We have to bring a teacher from a different college to our college to conduct the seminar

z) All teacher of our college is very responsible and teaches us very carefully. All teachers behave ourself very nice, like as a friend. all worker and union of the college is very responsible. so I think that all the teachers ,worker, or union all tried to improvement of the college.

Well available online resources can help to maintain transparency in the admission process, thus keep up the college reputation, libraries are needed, By arranging group discussions, debate competitions, quiz contests and online seminars, students will get more interest in education, hence, engage more in the course of learning. Canteen will be needed , keep the campus ground clean, a good common room needed for women.

Our college is situated in a very natural environment on Keshiary to Medinipur line, 3 km from Keshiary busstand. Every building and surroundings of our college is very clean. Although our college is complete, some deficiencies remain such as a playground, canteen, drinking water facility on every floor, some good books in the library (Compative books), and inclusion of some new subjects. Many good boys and girls have to go outside to study due to not having many subjects, in this case not all families are able to send their boys and girls outside for money. Lack of teachers in every department. Mainly lack of teacher and room in English department. Teacher and student relationship is very good. It is true that we may have got very few teachers, but we cannot forget the ones we got. I have learned from them not only education but also how to walk in society. Every cultural program of the college is organized very well and the number of participants is also very high. We are very proud to have a man like A. Rahaman Sir as a teacher in our English Department. As this college was built mainly based on rural areas, today many boys and girls of the village have been enlightened by the light of higher education.

All our teachers are good and environment is also good. Our professor helps us and support, guide like gurdian. Our class room and campus is good. This three years are remembered in my life. I truly read and enjoyed my friends. Our library room is good.

Upgrading library facilities. It will be beneficial for the upcoming students. library is a place where books and sources of information are stored. They make it easier for students to get access to them for various purposes.

I wish the college to progress in the future and the students to progress towards their studies and make the college shine. I want the college to progress, and the future of the children to be brighter.
